

Obreda Winston:

We was exiting the highway and a car ran into the back of us. It's like as if we wasn't there. He hit us like at a 40 mile per hour like that. Put me out of work for about three weeks. I was in a tough position due to that accident. I had a sprained neck, my knee hit the back of the chair, so I could barely walk. I was on crutches for about two weeks. Back trouble, just the whole body was just in pain.

Obreda Winston:

Another lawyer referred me to Mr. Marcus. And that was the best thing she could've did. He's just so caring and compassionate with his clients. I found it to be important because you already going through a tough situation, like me, no car, can't get to work. Things are just backing up on you. And then, to have a caring lawyer say, "Look, I understand you're going through X, Y, and Z. Let me help with this until we settle," that just meant the world. It was more than what I was expecting. So for what I got back, it was just like, wow, and I still got this much? But that's just how good he is.
